

The all-new
Golf GTI 2.0 TSI

Model specification

The hatch is back **hotter than ever**

Renowned heritage. Outstanding performance. Unmistakable style. The Golf GTI is the sports car that other vehicles can only aspire to be. Now it's back, and it's better. The 8th evolution of Volkswagen's iconic hot hatch has all the defining characteristics of a Golf, with a twist of innovation.

Featuring Volkswagen's most advanced driving technology and an entirely digitised interior landscape known as the Driver's Workspace, the Golf GTI is sportier, more dynamic, more intuitive and more pleasurable to drive than ever before.

Stop and stare **All you want**

So striking you had to stare. With its smooth lines and stylish curves, the all-new design of the Golf GTI continues to pay homage to a shape that is known and loved by many.

From the rear, the Golf GTI's athletic look is further enhanced by the sporty roof spoiler, dynamic taillights and chrome-plated tail pipes.

No matter where you drive, you just can't avoid the attention. Not that you're complaining.

Aggressively **impressive**

It's fresh, yet familiar. The all-new Golf GTI sports a new radiator grille and honeycomb air intake, giving it a bold, modern outlook. A new, dynamic front styling, redesigned LED headlights, and 18" alloy wheels undoubtedly define the iconic look for this hot hatch.

The all-new Golf GTI features full LED headlights with cornering function and all weather lights, as well as an illuminated strip between the headlights.

The latest generation Golf GTI comes equipped with 18" Richmond alloy wheels, perfectly matching its stylish, powerful profile and distinctive look.

GTI

Truly one of a kind

The all-new Golf GTI prioritises exhilaration in every drive, as proven by the turbocharged engine generating 245PS and 370Nm of torque together with a 7-speed wet clutch DSG transmission for smooth, effortless overtaking.

With a new shift-by-wire technology, gear shifts can be engaged easier and quicker through a compact and innovative new-generation gear selector.

The latest generation of Golf GTI has taken bold strides towards an era of digitalisation, but its core philosophy remains the same — it always strives to make driving fun.

Have a **Great Time Inside**

All of the components inside the GTI are carefully tailored to give the vehicle its unique sporty look. This starts from the Black Metal Chrome trim along the dashboard and door panels, illuminated footwell and stainless steel pedals, leather-wrapped sports steering wheel, and extends all the way to the black headliner and exquisite honeycomb texture on dashboard.

The interior of the GTI is carefully designed to be equal parts beautiful and comfortable, with meticulous attention to detail on ergonomic aspects that ensure the driver and passengers stay fresh even after a long drive. Now you're guaranteed to have a great time.

The beautiful high-quality premium Vienna leather sport seats are a real treat for the eyes, and for your back. The driver lumbar support can be adjusted electronically to provide excellent support and a pleasing level of comfort, and they also come with an active climate function that cools you down on really hot days.

A touch **more intuitive**

All of the cutting-edge features of the all-new Golf GTI are shown on high-resolution displays, and can be operated using haptic-touch controls on the multi-functional sports steering wheel. A simple tap of the finger allows you to adjust the 3-zone Climatronic air conditioning, play back the music you love, or access the latest traffic information and route navigation.

To really set the atmosphere, the ambient lighting adds pleasant accents of light in all the right places, and comes with 5 preset themes from a selection of 30 colours that match whatever mood you're in. Everything you need is only a touch away.

Integrated **driving innovation**

With equal measures of pure performance and state-of-the-art technology, you can prepare yourself for an unforgettable driving experience.

The 10" Discover Media navigation system also keeps you connected in your drive. It includes an intuitive 3D navigation, connection for bluetooth mobile phone and audio compatible devices, along with simultaneous pairing of two compatible mobile devices and SMS functionality.

You can also look forward to seamless media playing via Wireless App-Connect®, which works for both Apple CarPlay and Android Auto, music playback and album title and cover art.

The Vehicle Dynamics Manager with Dynamic Chassis Control also lets you fine-tune the car's driving characteristics, giving you a new level of control with even more manoeuvrability.

Everything adapts to you

The brand new Digital Cockpit, which is a 10" fully configurable, interactive TFT dashboard display, is personal and intuitive. The all-new Golf GTI is able to remember your personal preferences for a wide range of functions, including air conditioning, lighting, radio and navigation.

Designed to **get you home safely**

In engineering the all-new Golf GTI, safety takes the top priority. With that in mind, the hot hatch is fully equipped with 6 airbags and safety systems such as an Automatic Post-Collision Braking System, anti-theft alarm systems, Driver Alert system, all the way to safety-optimised head restraints. It also comes with an Electronic Differential Lock (XDS) that provides exactly the right amount of power when driving around tight corners, distributing pressure to prevent wheel spinning.

The structure of the all-new Golf GTI is built with a combination of 5 steel types that increase rigidity and provide optimal safety. At the same time, its structure remains lean and sturdy, so that the overall vehicle is light and carries itself effortlessly. The result? You'll feel a more agile, precise and efficient driving experience.

Golf GTI 2.0TSI

Volkswagen Cares App

We are committed to care and provide the best for Volkswagen customers. More than just a loyalty program, Volkswagen Cares applies on all levels and embodies how we interact, engage and serve our customers better. Customers may also download the Volkswagen Cares mobile application, an aftersales-led initiative to continuously improve the ownership experience. The mobile app comes with a list of features related to both sales and aftersales, including service offers, owner rewards, educational videos and tips event updates, and 24-hours' roadside assistance - all at the touch of a button.

Volkswagen Care Plus (VCP)

An integral part of Volkswagen Cares is Volkswagen Care Plus (VCP), an exclusive program for owners with a vehicle 5-years and older. With a minimal one-time payment fee, VCP member privileges include three 20% service discounts vouchers, 2-year extension of Volkswagen's Roadside Assistance, and more rewards. Interested customers can sign up at any authorised Volkswagen dealer to make payment before receiving their membership card.

Body & Paint

Safe and strong: Volkswagen Genuine Body Parts give your Volkswagen the necessary stability and offer you the best possible protection in the event of an impact. As we have developed all parts especially for your original, they fit like a glove. The result? You save time and costs in any repair and your Volkswagen remains an original through and through. Best of all, our paint and workmanship comes with 2 years warranty for your peace of mind.

24-hour Roadside Assistance

When your Volkswagen has a breakdown, our 24-hour roadside assistance service team is readily available to help you with the following services:

1. Tow assistance and recovery to the nearest Volkswagen service centre.
For security reasons, towing service will not be provided to an unattended vehicle.
2. Emergency telephone call to family or friend of the Volkswagen driver.
3. Battery jump start. If your vehicle cannot be driven safely, towing services will be provided.
4. Flat-tyre change (if spare tyre is available) in a safe environment.
Otherwise, towing service will be provided.
